

Submitter: Matthew Johnston
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

This is nothing more than 114 repackaged. This isn't about safety, it's about control. The only impact sb348 will have is low income and people of color will not be able to defend themselves. Requiring a permit to exercise a constitutional right is absolutely insane! What's next a permit to attend the church of your choice?? 114 is unconstitutional and sb348 is the same unconstitutional garbage. Instead of taking rights away from law abiding citizens how about y'all focus on protecting the rights of citizens and focus on root causes and education.
