

Submitter: Greg Rehmer
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

The laws are emplaced already! Taking personal freedoms from law abiding citizens will not change anything. Our country is giving way to lawlessness and the good people of America are paying the price! The use of sporting arms by responsible sportsman is not the issue here. The use of any type of weapon to commit a crime is as illegal as it can be, making it more illegal is not the the solution! Open borders, drug cartels and the disregard for our law and order is what we are facing here! I am a avid sporting arms user and no one's safety is being compromised by any of my activities. I have a strong opposition to any violent use of any firearm or other weapon, my deepest sympathy goes out to innocent victims of the misuse of such! Please keep the honest hard working law abiding taxpayers rights and freedoms a top priority in the decisions you are about make! The guns are not the root cause here and solutions will not be as simple as more legislation! The moral degradation in America is the issue here!
