

Submitter: David Hill

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Talking with lots of oregon residents, minority and lgbtq communities we all agree that these bill will make us unsafe and not able to protect ourselves from criminals or hate crimes against communities of color or sex preferences and lifestyle also it goes against federal and state constitutions several members of the lgbtq feel targeted and scared that they will be unable to provide protection for them and their loved ones, and the citizens feel targeted and their traditions will be hindered as far as hunting sport shooting, this legislation does nothing to curb violence nor inhance safety it only makes people at risk more vulnerable,thank you for your time
