Water

Measure: HB3086

I support HB 3086. Geographic representation will better support the needs of individual regions and management of wildlife. I do not support the -1 amendment, but do support the -2 amendment.

Our fish and wildlife are not distributed like our population, and what works for our population is not in the best interest of our fish and wildlife. Living in Portland, I believe representation should reflect the land we live in when it comes to managing and conserving our wildlife.

I support passage of HB 3086 with the -2 amendment.
