

Submitter: Christopher Finazzo  
On Behalf Of: Fishermen and women  
Committee: House Committee On Judiciary  
Measure: HB3390

Please reconsider this ban. This will benefit no one. Fur, Feathers and other natural materials have been used by humans since the beginning of time. If you must pursue this overreaching attempt to CONTROL your citizens you will only force farmers, hunters and fishermen to leave your State. Consider exempting fly tying, archery, and fishing equipment from this overreaching legislation
