

Submitter: Lisa Scrimenti
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

"I OPPOSE SB348. Please stop spending taxpayers' money on studies that are unnecessary. If you seriously want to reduce the unlawful possession of firearms, please fund the police, the district attorney's office, and especially, the office of the public defenders. They can then enforce and prosecute criminals. Criminals are being released and going unprosecuted because there are no public defenders available. Spend the money on enforcing existing laws, not on making a study that may show you how to create even more laws that could infringe people's Second Amendment Rights. Please do not waste the legislature's time and money on this study.

Respectfully submitted,
