

Submitter: Sue May

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: SB907

I OPPOSE SB907, We do not need more regulations; instead hold employers accountable with current regulations and laws. Adding SB907 regulations on top of the current OSHA regulations and government laws already in place is a duplication of efforts. What will the cost be to Oregonians? And what is the long term goal of duplicating something that already exists?
