Measure: SB348

Oregon resident, Military veteran, and I'm tired of our politicians infringing on our rights when they took the very same oath we veterans took to support and defend our constitution.

This bill does nothing to go after criminals on our streets except turn the thousands of Oregonians who wake up everyday with zero intent on harming anyone into criminals.

The proposed bills have all been deemed unconstitutional in courts and our Supreme Court numerous times and if our politicians actually did their job and were qualified they'd understand that. Or maybe they do. Maybe they do understand that what they are doing is ILLEGAL and want to just tie it up in courts while wasting Oregon tax dollars fighting an unconstitutional law to infringe on its citizens.

Oregon does not have a gun problem. We have a Portland crime and violence problem. It seems politicians don't want to address the real issues but use guns as scapegoats to further their real agenda which we all know is to disarm our population.

Our Oregon constitution as well as our Federal constitution protects the rights of the citizens to bare arms ! The supreme court Heller and Bruen cases have made it extremely clear. Enough is enough of the infringements on our rights.

It saddens me that I myself an immigrant and child of immigrants who came to this country and served this country and value this constitution is watching the very people who are supposed to uphold our constitution continue to disregard it and make a mockery of it !

Oregon will continue to be sued in courts for the infringement of our rights and I hope Oregonians start seeing how their tax dollars are being used. We recently had New Mexico back off one of their ridiculous tyrannical and fascist infringements as well because they recognized they will LOSE ! and it's not honest to the public to pass laws that are not in keeping with the constitution. Meanwhile in Oregon they're drooling at how they can one up WA and CA states infringements which are losing in courts as well.

If Oregon was serious about violence, then it would lock up violent criminals in Portland destroying our city each and every day. Instead they think the public is dumb and want to use words like "gun violence". THERE IS ONLY VIOLENCE, and

it exists and until Oregon gets serious about it disarming everyday tax paying peaceful citizens does not fix that problem ! it makes those peaceful people more attractive prey to the criminals Oregon refuses to lock up.

We hear common sense gun control. And they LIED to the public. Whenever they want to pass more infringement they throw in "background checks". Well of course you'd vote for background checks wouldn't you, that is common sense. What they lie to the public about is the fact we already have background checks !!! You can't buy a gun legally without background checks ! And you can't stop illegal gun ownership anymore than you can stop people from obtaining illegal drugs. Murder is also illegal, but it seems like the criminals don't really follow that law do they ? Imagine that, people with intent on harming others do not go asking for permission, who knew ?

I urge Oregon to oppose this bill that is badly written, deceiving, and unconstitutional to begin with.
