SB 348

I urge you to oppose SB348. We have only a brief time to study it because of the late submission but it is obvious that the increased cost targets lower income folks and adds more money and burden into a system that can't possibly have the staffing to implement. Wouldn't you rather keep our law enforcement agencies doing their job that keeps the public safe? This bill is more restrictive to law abiding citizens, not criminals. Thank you for considering my testimony.
