

Submitter: Candis Yow

On Behalf Of: Ladies Hunting Camps

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB3086

Thank you for the opportunity to testify for HB 3086, As a Hunter, Mother, and Grandma of hunters the conservation and preservation of our Wildlife and Habitat is vitally important to me here in Oregon as well as across the Nation. If I could achieve one goal in life it would be to make sure my grandchildren have the same opportunities as I have had to live in a Beautiful State with endless opportunities to hunt, hike and enjoy our wildlife in God's Country. We all know our wildlife is suffering, herd numbers are way down, poaching is all-time high, predators are outnumbering our wildlife, I could go on, but it isn't very often that we have a bill come through that is actually a positive move in favor of our wildlife. HB 3086 is. The Redistricting that has taken place in our State has left some of our best lands without representation for our Wildlife, and this would allow that to change. For the future of our generations, as well as the future of our wildlife, I ask that you vote yes to support HB 3086. Thank you so much for your time today, Candy Yow
