

Submitter: Chris Girard
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

To whom it may concern,

HB 348 will reduce the rights of legal and responsible gun owners. It will have little to no impact on reducing criminal gun use/crime.

It will also will impact one's ability to legally participate in outdoor pursuits such as waterfowl and big game hunting.

Hunters and outdoor enthusiasts have long been champions of conservation. This bill will severely limit, or outright eliminate non-profit organizations from raffling or auctioning firearms. This loss of revenue will significantly reduce habitat and wetland conservation efforts across Oregon, impacting both game and non-game species.

I strongly recommend opposing HB 348.
