

Submitter: Stan wells

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

You can try and pass all these restrictive rules and laws but until you address the mental health issues, that cause the gun related offenses, you are just spitting in the wind. Start by criminalizing drugs, serious jail sentences, and, in my opinion, eliminating VIOLENT video games, is a good start. This issue is hilarious! People have wills of their own. GUNS DON'T. Think about it...
