

Submitter: BILL KERR

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

SB 348 is obviously an "end run" around SB 411...Both make a poor legislative attempt to eliminate the rights we have under the 2nd Amendment...No age is stated for gun ownership.

Maybe the writers' of this bill should make the age of semiauto weapons ownership legal at age 100...why 21? You can drive at sixteen, vote at eighteen. Young men who join the military at 17 years of age are handed fully automatic weapons. In two years they are out of the service and have to wait two years to own a semiauto. Get a life, smells some flowers, and get real when writing end runs around the 2nd Amendment.
