Measure: SB348

I oppose Senate Bill 348. We the people of Oregon voted on measure 114 and yes it did pass by a very slim not even a 1% majority. It is now in the courts to make a official decision both federal and state! When you made Measure 114 you didn't have anything in place to even implemented it yet you are going to. You are going to take away Oregonians rights to Purchase a firearm. And now you're being vindictive because you didn't get your way, is this how the Oregon government is ran? This is against the Constitution. Our 2nd amendment shall not be infringed. I hope you highly Reconsider this bill. Because if this bill is implemented and everybody that has purchase Gun magazines since December of 2022 become felons, the state of Oregon, in my opinion, well be in serious trouble. The permit-to-purchase' fee from \$65 to \$150. This reflects the newfound reality of the bureaucratic complexity of Measure 114 and the higher costs of implementation. The result of a higher fee is to make buying a gun more difficult for people who live in poor areas. Yet our Governor wants to use our tax money to give them a \$1000 a month for 2 years with no records and she doesn't care what they use it for. Increases the minimum age to buy a gun to 21..But you want them to fight WAR for this country at 18? Gun free zones kill school children. Do you think an armed criminal is going to walk into the sheriff's department? A gun show? A home with an American Flag and a Trump flag? A gun range? Absolutely not they are going to walk in to the one place that is going to hurt Americans the most and that is the schools. Elementary, middle, high school, and college!!! Where they know That it is unsecure.

I highly urge you To throw out this bill along with measure 114 and educate yourselves and your neighbors on gun safety! Pew Pews are not the problem, our Government is! Allowing criminals to go unchecked, unsupervised, unpunished and allowing early release to 2nd time 3rd time offenders!!! Democrats have ruined Oregon.
