

I strongly oppose SB348! Just knock it off already! We have so many terrible issues going on in this state, and all you can do as public servants is dodge the real problems and waste tax payers dollars! All these feel good bills do is disable the rights of law abiding citizens and arm the criminals to continue disobeying laws! I can drive seven miles to work and see homeless camps, people sleeping in their cars, and RV's parked on the road pushing drugs. Those are the real problems! Start supporting police enforcement and pass bills that allow them to do there job and there is your " Reduction of Gun Violence". I am so sick of the Oregon Legislation passing these laws that do nothing to protect LAW ABIDING CITIZENS!!! All you are are doing is ENABLING CRIMINALS! Throw this in the trash and get to work with our taxpaying dollars on bills that punish criminals, mental health support for kids that are victims from this state passing all these crazy laws that make them homeless or parentless because the people they look up to are addicted to the drugs that are around every corner like candy shops and CRIMINALZE drugs again!!! SAY NO TO SB348!!

Sincerely,

A very fed up 45 year Lifelong resident that is embarrassed of this state!
