

Submitter: T T
On Behalf Of: Self
Committee: Senate Committee On Judiciary
Measure: SB348

This is a massive and unnecessary overreach. The issues our state is seeing are related to criminals committing criminal acts, and this bill does little more than make people who are following the laws we already have into criminals. Law abiding gun owners are being punished for crimes committed by individuals that are not being prosecuted or held accountable by the justice system in Oregon, and all of the sponsors of this bill know that. Strike it down.
