

Submitter: David Fossholm
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Dear Senators,

I am tired of this constant attack on something that I enjoy and believe in. I wake up day after day and question if today the things I own will make me a felon or a criminal. Not only will this not hold up to court challenge, it will waste thousands of taxpayer dollars we desperately need elsewhere. This bill is just trying to side-step due process. I guess I shouldn't be surprised since when it comes to firearms, you usually try to side-step due process and proper procedure. The war on alcohol didn't work. The war on drugs didn't work. The war on firearms clearly won't work either.

The best way to stop shootings is to improve the lives of the people in the community. By passing this bill you will only waste taxpayer money fighting the inevitable legal battles that will be won. Let us save that money for things that are worth fighting for, like cleaning up our cities and taking care of our neighbors who need assistance. Law abiding citizens are not the enemy here but you aim to make us one - a well armed one. Please reconsider if Bloomberg money and Mom's Demand Action idiocy is an acceptable compass to guide your decisions. We are living at one of the safest points in history - let's not fear monger our way into passing poorly thought out legislation.

Please vote no on this bill and stop breaking your oath to the constitution.
