Committee: Senate Committee On Judiciary  
Measure: SB348

What part of the 2nd Amendment is confusing to you? The fact that you want to put MORE restrictions on law abiding citizens is proof you couldn't care less about our fundamental rights as Americans. Criminals do not follow the laws and will get their hands on any guns they want. All you're doing is taking more rights of law abiding citizens to be able to protect ourselves and our families against the criminals. Do not pass this! It is unconstitutional!
