

Submitter: Debi Byrd

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Please kill this bill! Oregon has been doing this for many, many, decades. Fur sales not only help support rural families, but the trappers help keep the fur bearing animals numbers in check. This in turn protects other species. There is a cycle of life which most city folks have no idea about. The trappers understand it!

Please, do not allow people who do not understand, make these decisions!!
