Committee: Senate Committee On Judiciary

Measure: SB348

There is already a fee associated with the background check. Now I need to pay \$150 for "permission" from the government to exercise my constitutional right? Will newspapers have to pay \$150 for "permission" to exercise their speech rights every time they print a paper? Will individual protesters need to pay \$150 for "permission" to exercise their right to protest? Will people need to pay \$150 for "permission" to go to church every Sunday? I know you will say, "but guns are different". But that would be a lie. You may not like the right, but it exists nonetheless. In fact, it was designed specifically for times such as this.
