

Submitter: Michael Hanson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Limiting gun rights and U.S. Constitutional second amendment rights should never be explored. The founding principles of our nation intended for the people to be able to enact a strong militia to protect our nation. Once the right to bear arms is given away then only the criminals will be the ones that have guns. We also need to be able to defend ourselves from a tyrannical government if the need arises. This is what the founding fathers of the USA intended, whether it be 1776 or 2076 or now, it does not matter. These are our unalienable rights as Americans.
