Measure: SB348

SB 348 backdated to 12/8/2022 to criminalize people is just wrong and will accomplish nothing but, expose this administration to be the communist regime that it really is.

This bill will directly violate the 2nd Amendment. And violate the peoples Rights to protect them selves. None of this will make anyone safer.

Oregon does not have resources to implement M114 nor the ability to Maintain it.

Deceiving the people with lies and Propaganda will only further divide this state.

Making more laws that are unconstitutional will only cause more people to rise up.

With this bill you are making things worse not better.

SB 348 is just a bad idea and is unconstitutional.
