

Submitter: Daniel Mackenzie
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I opposed Measure 114 at 2 pages and especially now at 64 pages. Law abiding citizens should NOT have to jump through hoops to exercise a Constitutional right - and the guise of "public health" is laughable at best as we look at a fetanyl crisis that is completely ignored. We don't need studies to address unlawful possession of firearms either - we need to actually start strictly enforcing the numerous laws already on the books!
