Committee: Senate Committee On Judiciary

Measure: SB348

Regarding SB 348. This enhanced version of measure 114 that barely passed is nothing short of criminal.

Just how is making lawful gun ownership more expensive, and much more difficult going to help with criminals that don't buy guns from a gun store?

How is allowing more gun free zones going to stop a deranged person that has no regard for the law, except to give him an unarmed group of people to kill?

I'm sure that you know that this will prove unconstitutional, and your intention is bleed dry gun rights groups. How many people will die in your crusade to disarm us peasants?
