

I oppose 348 in its entirety. Much of the amendments of this are cut and paste from Measure 114 which was found Unconstitutional. I find it an interesting tactic to start this bill as a front saying it is to study how to keep guns out of the hands of prohibited possessors and then last second hide Measure 114 in there. This is merely a tactic to tie up a bunch of money that taxpayers will end up having to pay to find this bill Unconstitutional as well. You said that SB 554 would be the scheme to stop gun violence with the universal background checks and safe storage yet that is obvious falsehood, and your policies have failed this state the last couple of years. Businesses are hurting and being shut down and violent criminals roam free terrorizing our communities, yet you blame it on those who jump through all kinds of hoops in order to exercise their Second Amendment rights that is substantiated in the Oregon Constitution. Every citizen is the militia in order to protect ourselves when the government is unable or unwilling to do so, which we have been seeing the last few years.

“Big lies, defund the police so that there's big crime  
Then take away our freedom to restore order they let die” – Tom McDonald
