

Submitter: Estella Bitney
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Greetings,

With all due respect, the legislature is supposed to protect the state and federal constitutions, including the 2nd Amendment. What part of shall not be infringed do you not understand? It is illegal to empower the dept of justice to interfere in my rights! We do not live in a socialist country, we are a republic and as a public servant who took an oath to uphold laws, why is this even a possibility? Vote no and stop wasting taxpayer money on attempts to restrict our God given rights.

Respectfully,
Estella Bitney
