Measure: SB348

SB 349 would be an extremely unconstitutional set of laws, and actually exceed the already blocked M114 bill, which will likely soon be permanently ruled null and void through recent clarifications of what the 2nd amendment actually guarantees to the citizens of the United States. The Oregon State legislature is sworn to uphold the constitution of both the United States, and the State of Oregon, and the passage of these prohibitions and penalties to that right, are a direct abdication of their sworn duty and responsibility.

M114 barely passed, and only by the liberal people in the high density population regions of Oregon, only 3 counties, and DO NOT represent the majority of the state (I think 17 counties voted NO) in regards to upholding the constitutional rights of the citizens of Oregon, and the US at large. M114 will be struck down, and the attempt to implement the tacked on gun control to SB 349 at the last hour of Friday night, is an egregious overreach of the legislative body of this state. California excessive and draconian gun control laws are currently being ruled to be unconstitutional. Washing states new "laws" will also fall in the near future. Why burden us with laws which are not lawful? It's futile anyway, and it's oppressive to those whos rights you seek to deny.

Your "laws" will fail. So why pass laws that your KNOW are not lawful, are a violation of your own sworn duty, and will be extremely costly - a huge waste of taxpayers money, and are ultimately doomed to fail, as they are not lawful?

As a US and Oregon citizen, I strongly oppose your infringement of my rights, and those responsible should be brought up on legal charges for knowingly violating both the US and Oregon State Constitution.

The proposed law also burdens citizens with unnecessary procedural burdens and fees, directly affecting our ability to exercise our rights. The fees raised to \$150 is absolutely inappropriate, as it will prohibit those who are poor from the ability to purchase a firearm, which is their right.

The proposed laws will in no way cause safety to increase, merely inhibits those who actually obey the laws to exercise their rights. The 2nd amendment is clear, "shall not be infringed upon", which is exactly what this bureaucratic clown show will do.

Backdating and criminalizing the purchase of high capacity magazines to 12-8-22 is both unethical and unlawful, but will ultimately be overturned. Turning law abiding

citizens into criminals in the state is NOT what the government of Oregon should be trying to do. Going after those who rioted and destroyed private property in Portland, doing acts of domestic terrorism, prosecuting Antifa, and those on the fringe left, those liberals who the government of Oregon did NOTHING TO PUNISH OR PROSECUTE AGREGIOUS LAW BREAKERS! That is negligence of the highest order on the part of the Oregon lawmakers and those in law enforcement. Enforcement of laws and punishing violators of the law should be the focus of the government, not turning law abiding citizens into criminals at the stroke of a pen.
