

Submitter: Michael Nelson
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

This amendment to an already unjust law are power grabs. This should not be up for a vote, not even a debate. The constitution is the supreme law of the land and the overreach of Measure 114 should never have even made it to the ballot, let alone pass. "All laws repugnant to the constitution are immediately null and void and may be disregarded with impunity"- Marbury Vx Madison.

Any political representative putting this forward will be committing political suicide. People will not stand for this. The 2nd amendment guarantees the right to bear arms to all citizens. There is no such thing as unlawful or illegal gun ownership. Your legislation is waking people up and forcing us to educate ourselves on what the founding fathers warned us about. Tyranny. We won't allow it to happen again.
