

Submitter: James Lewis
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Please halt the extensions against our second amendment rights. This state has already more push in violation than others. Utilizing our existing systems better including improving addressing directly to improve the mental health of our populous is paramount! We have already an insane amount approved to pull from the marijuana program which voters approved for education.. this was re-directed to mental health, but instead money is addressing administrative use of narcan and giving out tents. We don't have a housing crisis, a mental health crisis is feeding a drug crisis and blowing up the statistics of our homeless population. Please direct legislative efforts towards accountant for utilizing the EXISTING funding and programs. If you want to HELP make gun safety training MORE affordable. Make mental health MORE affordable. Thank you for your consideration of standing for our second amendment, for your people.
