

Submitter: Holli Morton
On Behalf Of: Josephine County Republican Party
Committee: Senate Committee On Judiciary
Measure: SB348

SB 348 is a repackaging of Mz 114, which is currently being litigated, an attempt to undermine the injunction that was placed on Mz 114 or to reframe an issue that is already under consideration. First and foremost, Mz 114 and SB 348 violate the US Constitution. They will be overturned; however SB-348 is an ill-willed attempt to force continued unnecessary litigation, which will cost millions of dollars to defend.

On one hand, Democrats suggest that 16-year-olds have the capacity and knowledge to vote, an obvious attempt to expand the voter base. Simultaneously, you are attempting to change gun laws to push rights of gun ownership to age 21.

The bill calls for the prosecution of anyone who bought or sold a standard magazine since Dec, 8, 2022. Magazines are still being bought and sold because of the injunction. Floyd Prozanski and the Democrats want to jail anyone who has done so since December.

The anti-gunners have unlimited funds and the Oregon Department of Justice is doing all it can to bleed gun owners financially. They are now demanding over \$100,000.00 dollars for lawyers fees for defense of the Columbia County Second Amendment Sanctuary law.

This is political dirty fighting at best. Many Democrats and most Republicans were against 114. It is time to stop the manipulation and stupidity.

The Republican Party platform defends the 2nd Amendment of the Constitution in no uncertain terms.
