

Submitter: Sidney Prescott

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

While in general I would support this proposed bill, please consider that fly fishermen often purchase or tie their own flies with natural products of feathers and fur. Most of us are strong environmental activists and use fishing techniques that support the health and restoration of our Oregon fisheries. So please consider an exemption in this bill for materials used in the making or selling of the flies used in this sport.

Thank you.
