Measure: SB348

Oregon already has strong and sturdy firearm laws that require background check and fingerprints. CHL holders have to attend a class, pass multiple background checks, application and fingerprints.

Look at the overall state. It's easy to see the only areas that want Constitutional rights taken away is Portland and Eugene. STOP creating bills on the fears and on the unconstitutional wants of these two cities. Its not difficult to understand why half the state wants to succeed from the rest of Oregon. We are tired and fed up with Salem only listening to the Democratic political side and ignoring the rest of the state.

Salem should be looking at ways to remove Government tyranny. You can start with this bill.
