

Submitter: Kyle Allison

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB408

This bill is absolutely wrong. You cannot give authority to a government entity to dictate how all must conduct medical practices. If this were the case a couple years ago, I wouldn't have been able to receive a much needed surgery. Furthermore, I wouldn't be able to obtain the insulin that finally allows me to monitor and control my blood sugar levels properly. This proposed bill is unacceptable. It should never have been proposed in the first place. There is not one good reason the government should be involved. You already have far too much involvement. The OHA has clearly demonstrated they are incompetent and ill informed.
