As a senior living in medford, I am shocked to see whats happening to oregon
in many ways, not just the issue of guns

but for now, stop the nonsense and lies regarding gun violence

honest law abiding citizens are not the problem, criminals that do not follow the law are
the problem
and all the laws on the books and more gun laws will not deter criminals from doing
what they do

I oppose this crazy ongoing never ending gun grabbing bills that will accomplish nothing

I suggest you should focus on rounding up the criminal gang bangers antifa etc and
stop releasing
from jail when crimes are committed

Oregon seems to invite crime and homelessness and drug dealers, because there are
no consequences only rewards for bad behavior in oregon

we are not stupid, we know the game

Its destruction by design, to cause chaos in the streets and then blame honest citizens
that protect themselves WITH GUNS, because YOU have DEFENDED THE POLICE

STOP blaming us for the problems you all purposely create

What part of the supreme court ruling do u not understand ?
what part of the oregon constitution do you not understand ?

people are leaving oregon in droves, because oregon is turning into a 3rd world hell
hole

Theres a reason PORTLAND Businesses are leaving in droves, and you created the
exodus
with insane policies

thank you
