

Submitter: John Grimwood

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Simply adding layers of wallpaper over walls of a house with a weak foundation and poor framing will not make it "good". Recognize the weak and poor construction of Measure 114 and raze it now. Then create a well planned blueprint to lay the foundation for a realistic bill that is constitutionally solid and sensible.

If decorating is desired, let it be in the realm of real support to community mental health efforts and recouping Oregon State Hospital's critical functions.
