

Submitter: D Emling  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

As an avid fly fisher in the state of Oregon I use animal fur and animal skin products that would be banned by this bill daily in my life. Please note that I strongly oppose any bill that would hinder my ability to enjoy the great outdoors in Oregon. The animal products that would be banned are used in the creation of the flies that I use to fish with. The products used are the best possible way to create patterns that both look and act like the prey of the fish I seek and have been used for this practice for hundreds of years. This bill will drastically impact the hobbies of countless fly fishers in this state and should not proceed or at the very least have an exclusion for fly tying supplies.
