

Submitter: John Campbell
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I submit my testimony in COMPLETE OPPOSITION of this bill. How could a fellow American use "gut and stuff" protocol to "amend" a 2- paragraph bill with 64 pages of unconscionable/unconstitutional actions? This tyrannical rogue behavior must HALT. Tell me where it is written our government is supposed to use these slimy subversive tactics to push political agendas? It would be nice to have a constitutionally bound representative government, not a dictatorship run by mob rule!

For example, take Article 1, section 27 of the Oregon Constitution and the 2nd Amendment of the United States Constitution. SHALL NOT BE INFRINGED is a clear directive to YOU! DO YOU realize your proposed bill clearly violate this directive, and does not address the economic disaster that this creates for the firearms industry? Your taking of property for which article 1, section 18 in the Oregon Constitution clearly addresses is criminal. Can you imagine the liability on the legislatures hands needed to compensate the firearm industry and dealers in Oregon for the taking of their livelihoods? How do you feel about steeling the firearms that currently exist in the possession of the people that do not meet the proposed standards? Your criminal theft of private property, through this bill, will make all who understand their inalienable rights, and do not comply, become criminals overnight. Listen, a legislature that subverts the constitutions & the judicial process is rogue. I demand you to kill this bill and let the legal process, already underway, determine the validity of these tyrannical efforts to strip Oregonians of their ability to defend themselves from all threats, both foreign and from Salem.
