

Submitter: Lauren Peck

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB408

RIDICULOUS that unelected bureaucrats in Salem continue to seek more and more power over educated, licensed medical professionals. Remember that OHA's Covid restrictions did absolutely NOTHING to reduce illness and death counts compared to other less restricted states, yet here they are again seeking more power for their ineffective and destructive strategies that only reward themselves with more power and funding. This state is becoming less livable and more embarrassing by the day and the OHA is a huge part in that. You're worried about public health? Why don't you do something about the hundreds of thousands of homeless folks living in their own filth and body waste with needles in their arms taking over our cities. I OPPOSE SB 408 and anything that takes decision making away from educated, licensed medical professionals and puts it in the hands of power hungry unelected bureaucrats. OHA officials want to make medical decisions? Go to medical school and become doctors then.
