Measure: SB527

I OPPOSE SB 527!

This is a companion bill to HB 2006 which I also oppose. They are both assaults on 2nd Amendment rights and have no basis in sanity or law.

Consider the hypocrisy: The same legislative body that thinks 15-year-olds possess the judgment necessary to make permanent life altering gender surgery doesn't believe that the very same population possesses the judgment to own a firearm. For consistency, lower the firearm purchasing age to 15.
