

Submitter: Patrick Kilby

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Please make proper exceptions for fly tying, fly fishing, or any fishing for that matter. Fly fishing in Oregon is amazing, and with responsible fly shops, lure makers and fly tying material suppliers based there it could destroy their livelihoods. Be very specific on what you're trying to protect and don't let the broad brush strokes of new laws cause financial harm when it could be prevented now. There are already laws and restrictions in place to control wild vs farmed animals and migratory birds and CITES for protected animals. Please do not go forward with this, as written.

Thank you,
