

Submitter: Stanley Oliver

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Committee Members

Please vote Yes on HB 3202

Recent research has shone a spotlight on the many negative effects of light pollution. Impacts on bird migration, disruption of circadian rhythms, including human's, and energy wasted on over-bright municipal lighting are easier and cheaper to fix now.

Setting new standards for more sustainable growth in Oregon will continue our exemplary leadership in seeing to the health of our environment.
