Measure: SB348

The blatant disregard for my 2nd amendment rights!

To slip this bill in at 7pm on a friday only goes to show the cowardness of the people trying to pass this gun control and ban. This was voted on once and found to be miss leading the voters and to be illegal. I find it hard for me to sleep nights knowing that this country is killing us from behind closed doors with no remorse and total disregard to my rights. you need to spend your efforts on the criminals and not the law abiding citizens that pay your salary. You will have the day that you have no supporters other than the corrupt and illegal.
