

Submitter: Sue Deering
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

Hello:

Please take into consideration the huge impact this proposed bill would have on the huge fly fishing community in Oregon. Thousands of us tie our own flies, or even have businesses for tying and selling flies. I understand that we don't want animals killed for their fur. However, the fly tying industry and hobbyists need certain furs for fly tying. I hope you will either make an exception for fly tying materials, or drop this bill altogether. Please seriously consider the huge negative impact this would have for tyers. Fly fishing is very important for Oregon; people come from all over the world to fish here. Don't jeopardize this sport.

Thank you for your consideration,
Sue Deering
