

Submitter: Mark Holady
On Behalf Of: self
Committee: Senate Committee On Judiciary
Measure: SB348

The Legislature should not engage in tactics to derail another legislative proposal/enactment that is currently under review unless it revokes the previous enactment. Measure 114, resurrected in SB 348, is under review in the federal and state courts. Meas. 114 is unconstitutional and has resulted in the waste of public monies in its defense. Continued promulgation of similar unconstitutional legislation will further drain public and private resources needlessly. SB 348 restricts the rights of law-abiding citizens and doesn't achieve the law's stated goals. In fact, it makes criminals out of law-abiding citizens. How is the citizenry supposed to trust its legislators to act in the public's best interest when the Legislature pulls chicanery like this to circumvent the public's proper, public, and timely response to Meas 114 in the Oregon courts?

Don't pass SB 348 out of committee!
