

Submitter: Dan Delgado
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Our cities and towns are overrun with homeless, and drug addicted people but you're focusing on Another anti-gun initiative that will further erode our Second Amendment rights in Oregon. What an embarrassment for the great state on Oregon that you are trying to implement laws that only law-abiding citizens will be restricted by. It's sad that Oregon has become the one of the states wanting to pass worthless gun legislation when we should be focusing on mental health and the homeless problem that is very evident around our state. Our elected officials should work on issues that matter to most Oregonians not a small group of anti-gun zealots.
