Measure: SB348

Dear Chair Prozanski and Committee Members,

Please do not continue with this divisive anti-firearm legislation that will only further divide the state. At a time when a significant number of voters want to split the state in two and are fleeing the state this legislation is a bad idea. Law-abiding firearm owners who are exercising a core Constitutional right are not the problem, and all of these bureaucratic obstacles will not help safety.

Oregon's current gun laws are significant and the penalties for violating them are similarly significant. We have in place what is needed. This anti-firearm anti-Second Amendment legislation is not for Oregon.

Thank you,  
Jesse Lohrke
