

Submitter: Gary Chandler
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Directed to Floyd P

This Bill goes against the Bruen decision as well as common sense reading of the Constitution amendment #2.

This bill will end up in court just like measure 114 already is in state court and both will be heard eventually by the supreme court.

This bill does not have at this time the resources nor the \$\$ to set up the permitting process.

You say that your for the poor and the little guys and gals. Yet this bill more than doubles the cost of the original measure 114 permit to purchase.

Why do you not allow 18-20 year old citizens even purchase a firearm, yet they can serve in the military!

Law abiding citizens are being treated like criminals in this bill. Pray tell, how is it that criminals are being arrested time after time, being let out again and again to prey on Oregonians?

Have you noticed, that since, lawbreakers, who go unpunished only continue to break the law. Only a lawmaker who has an evil agenda wouldn't have noticed this lawbreaking by now. In my view, You are acting like authoritarian's who want more power over the citizenry only to some how achieve your version of utopia in Oregon. This bill you say must be passed. "Its an emergency"! It will do nothing to stop the killing of innocents. Then, what will you take away? Knives, Hammers. How about Fists & feet!!!

Only when the heart of man sees in himself the will to do good and not to do evil, will we as a city, county, state or nation find our way out of this delusion.

But, God was taken out of school in the 70's. The family was replaced by the state.

Now, parents are being replaced with school administrators'. Marxist ideology is pushed in college. So, why is crime so rampant?

Thank You,
Gary Chandler
