

Submitter: Diane Battey
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I oppose this gun bill because it opposes our second amendment rights. As a widow, I took classes to be able to responsibly use a firearm to defend myself and my home. This is my right as a United States citizen. This state has no right to make it so hard to get a gun, limit magazine capacity and charge us so much money that many people may not be able to purchase a firearm. This bill punishes the law abiding citizens while making it easier for criminals to succeed. I want to be able to carry my pistol on hikes because there are cougers out there. Many people need firearms to kill a deer for their winter meat. There are so many reasons why this bill is so unfair and so I ask that you vote it down completely.
