Measure: SB348

I strongly opposed this bill!!!

Just because you see 114 failing in court, doesn't give you a right to attempt to nullify the court cases by repealing the measure before the trial could take place.

You continue to steal money from us tax payers to pay for legal council to fight tax payers which is why you continue to push unconstitutional bills. The people in this state should not have to continue to watch you spend our money on bills that do nothing but try to restrict law abiding citizens from exercising their rights.

We the people are tired of people like you who break their oath to uphold the constitution both federally and state. You go in saying you respect everyone's rights and freedoms, but yet, you all constantly do this. We are sick of it.
