

Submitter: Phil Martin

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I'm an avid fly fisherman and use many different types of fur to tie flies. I'm also an active member of the Central Oregon Fly Fishers club with over 300 members. Many of the members also tie flies and use fur. If I understand this bill correctly the passage of HB 3390 will prohibit me and other members of the Central Oregon Fly Fishers club from going to my local fly shop to purchase fur to tie flies. As a result, I and other club members will have to order materials on-line. This not only impacts me and fellow club members, but it also economically impacts the local fly shops in Bend.

Please exempt fur for fly tying purposes from this bill for the benefit of fly fisherman throughout Oregon and the economical benefit of the many fly shops in hte state.

Phil Martin
